

DAY - 4

C:

```
#include<stdio.h>
int main()
{
    int n;
    scanf("%d",&n);
    if(n>0)
    {
        printf("Positive number");
    }
    else if(n<0)
    {
        printf("Negative number");
    }
    else{
        printf("Neither positive nor negative");
    }
    return 0;
}
```

PYTHON:

```
n = int(input())
if(n==0):
    print("Neither positive nor negative")
elif(n>0):
    print("Positive number")
else:
    print("Negative number")
```
